

WEBINAR SERIES 2021

ACSA webinars are a great way to access professional learning online and appeal to participants from a broad audience of educators and curriculum planners all over Australia as well as internationally. Join the curriculum conversation while at the same time complete professional learning hours.

We know how difficult, and expensive, it can be for busy educators to find time for seminars and other professional development opportunities. ACSA's webinars are timed to run concurrently with school terms and are a great way to benefit from the knowledge of experienced curriculum planners and academics right from your desktop, wherever you may be!

Each one hour webinar is cross-referenced against the Australian Professional Standards for Teachers for ease of professional development planning and a Certificate of Participation is provided when you have attended the full live webinar.

For more information on each webinar and to register, log on to the ACSA website at www.acsa.edu.au
