ACSA Webinars

ACSA's webinars are a great way to access professional learning online and appeal to participants from a broad audience of educators and curriculum planners all over Australia as well as internationally. Join the curriculum conversation while at the same time complete professional learning hours. We know how difficult, and expensive, it can be for busy educators to find time for seminars and other professional development opportunities.

ACSA's webinars are a great way to benefit from the knowledge of experienced curriculum planners and academics right from your desktop, wherever you may be! Each one hour webinar is cross-referenced against the Australian Professional Standards for Teachers for ease of professional development planning and a *Certificate of Participation* is provided when you have attended the full session.

Webinar costs include attendance at the live webinar and a recording of the session for your own use. You will receive a certificate of participation if you attend the full live session.

Something to consider before joining ACSA or renewing ACSA membership!
