*ACSA webinars

ACSA's webinars are a great way to access professional learning online and appeal to participants from a broad audience of educators and curriculum planners all over Australia and internationally. Join the curriculum conversation while at the same time complete professional learning hours. We know how difficult, and expensive, it can be for busy educators to find time for seminars and other professional development opportunities.

ACSA's webinars are timed to run concurrently with school terms and are a great way to benefit from the knowledge of experienced curriculum planners and academics right from your desktop, wherever you may be! Each one hour webinar is cross-referenced against the Australian Professional Standards for Teachers for ease of professional development planning and a Certificate of Participation is provided when you have attended the full session.

Webinar costs includes attendance at the live webinar and a recording of the session for your own use. You will receive a Certificate of Participation if you attend the full live session.

Something to consider before joining ACSA or renewing your ACSA membership!

Do you want to access webinars for professional learning? Do you have the right level of membership for your school's needs?

ACSA's new institutional membership means your teaching staff have access to all ACSA webinars on offer and sessions on demand! You will have access to tens of thousands of dollars of professional learning (depending on the size of your school) for your membership rate (see overleaf).
