

ACSA Webinar presenter David Buswell

BIOGRAPHY

Buz, as he is known, is the founder and mastermind behind the Studio School at Kurri Kurri High School. A former Cooks Hill Campus Advisor, he was originally employed at Kurri Kurri High School as the Head Teacher of the TAS Faculty. After working closely with the Year 10 group of 2017, Buz decided to take a pay cut and presented the idea of a Stage 6 Non-ATAR Program to assist these students to return to school and complete an alternative path of study to the traditional structure of the HSC program.

The big successes for Buz are the amount of students he is now helping obtain apprenticeships and traineeships as opposed to the past days of unskilled employment for our young people in the Kurri Kurri community.

Buz has many years of professional experience across teaching, engineering and sport careers which are the reason why he enjoys working with our senior students in assisting them to transition from school to employment and further study.

His passions include, coaching young people to realise their potential, football, paddle-boarding, jet-skiing and renovating houses.
