

## *ACSA Webinar presenter Joni Cameron*

### **BIOGRAPHY**

Joni is the Head of English and Languages at Coombabah State High School. Over the two years that she has been Head of Department, she has used a range of research-based strategies in order to change the culture of the department to one in which deliberate collaboration is used as a tool to enable student success.

Joni's work is largely influenced by the research of Lynn Sharratt and draws heavily on the use of data walls, case management and collaborative assessment of student work. Through the use of these strategies, the English department has seen improvement in the understanding of the relevant syllabus requirements as well as deep and rich conversations about students and specific strategies for success.
