

## *ACSA Webinar presenter Monica St Baker*

### *BIOGRAPHY*

**Monica St Baker** has embedded contemporary teaching philosophies and pedagogies at Hanwood Public School, despite the challenges of its small size and rural setting, and students' achievements are improving in response.

She has introduced a new flexibility – both in the curriculum, which now supports metacognitive teaching and learning, project-based learning, and in the use of classroom space, encouraging the primary students to, “explore greater levels of academic growth, with feedback, success criteria and reflection.”
